

# DZ5

AUTOMATIC COMPUTERIZED  
SINGLE NEEDLE QUILTING MACHINE

## Product Characteristic

- Adopt imported large rotary hook,arbitrary step quilting automatic disconnection detection,the screen at anypoint make embroidery.
- Equip with DURKOPP sewing head,to increase operate speed,the maximum speed up to 3000rpm.
- Presser foot can beadjusted according to material thickness Windows XP computer system control, precision quilting can be a variety of complex patterns.
- 360° independent jump flower function,super capacity memory system,spent version of the storage of more than 100,000.
- Real-timedata protection,continueto work in the original position after a sudden power outage.

## QUILTING MACHINE

## Technical Parameters

DZ5	
Overall(Lx WxH)	9900x3800x 1600mm
Quilt Thickness	≤80mm
Over All Weight	3000kg
Quilt Width	≤2400mm
Rotation Speed	3000rpm
Production Speed	70-200m/h
Stitch	2-6mm
Power	8.0kw
Rated Voltage	380v/220V,3p,50Hz/60Hz
